### **Lisa and Tom Cuchara's Bio**

Lisa Cuchara, PhD, Master Craftsman, HonNEC, and Tom Cuchara, MNEC, are passionate about photography, both behind the lens and in the digital darkroom. They have diverse creative interests ranging from Nature, Macro and Night photography to Urban exploration, people, and creative editing. From birds and flowers to babies and HDR, they appreciate the world around them and embrace the challenge of interpreting what their eyes see, and their hearts feel via their photography.

Tom and Lisa are both very active in many local and national photography organizations. They have had many successful gallery exhibitions and their work has been accepted into various juried exhibitions. Their photographs have appeared in *Adirondack Life*, *Wild Bird*, *Birder's World*, in calendars and on calendar covers, and on the cover of a paperback novel. Lisa has also had images accepted into the PPA (Professional Photographers of Association) loan collection and this year earned Double Bronze with 4/4 open and 4/4 Artistry Images Meriting. Their images have won awards at the local, state, national, and international levels. They have been photographing weddings, babies, parties, portraits, etc. professionally for over 15 years and have their own Photography Studio in Hamden CT. Their portrait philosophy is based on "We do not remember days, we remember Moments".

Tom and Lisa have published two books with Amherst Media. The first called "Create Fine Art Photographs from Historic Places and Rusty Things" is about their HDR and light painted images; it can be ordered from Amazon <http://tinyurl.com/lisatom-urbex> and is also available at brick and mortar bookstores like Barnes and Noble. Their second, one year later, is called "The Frog Whisperer: Portraits and Stories" <http://tinyurl.com/lisatom-frogs>.

They teach photography a variety of image capture and post-processing workshops and seminars, in the classroom and in the field. They have presented a variety of instructional programs and workshops (Photoshop, Digital Workflow, HDR, RAW processing, Macro photography, Travel photography, plus fun and interesting travelogue slideshows) at NECCC, PPA, PSA, plus many other camera clubs and other organizations. Check out their photo and editing classes, their photo tours and workshops, and view their photographs at [www.photographybylisaandtom.com](http://www.photographybylisaandtom.com). “Photography is an art of observation. It’s about finding something interesting in an ordinary place... I’ve found it has little to do with the things you see and everything to do with the way you see them” – Elliot Erwin

We enjoy photography, all aspects, and are excited to share what we know with you to inspire you. "Creativity is contagious, we yearn to pass it on". As photographers, we all need to know about our equipment, our cameras, our aperture, our post-processing, etc -- and logic will certainly take you from point A to point B, but imagination will take you everywhere.

We hope to see you at an upcoming photo op, photo class, photo tour, photo workshop, etc.!

Warm regards,

Lisa and Tom

We also photograph newborns, 2-legged and 4-legged children, seniors, families, maternity plus characters and cosplay.

We also photograph headshots (in today's world your headshot is your "brand").

Let us create a beautiful Fine Art heirloom to be enjoyed for generations. A moment does not last forever but a memory can. Let us create lasting memories for you.

A family portrait is a permanent representation of a moment in time in the life of the family. A family portrait transcends the family snapshot, in that it is orchestrated with a professional touch.

Your Family may consist of you and your dog, multiple generations of children and grandchildren, or anything in between.

This month is the perfect time to get the family together to make a memory that will last a lifetime.
